

Titan III

by Glaval Bus

STRENGTH AND GOOD LOOKS

With a solid reputation for both quality and dependability, the TITAN II has quickly become an industry leader in the commercial bus market. Built on the Chevy chassis, the TITAN II is available with either the 6.0L gas or 6.6L diesel engine. With a variety of floor plans available, the TITAN II can seat up to 25 passengers making it versatile enough to meet almost any of your transportation needs. Matched with the galvanized 'Steel-Safe' construction, the Glaval Titan II is sure to deliver.
